All cashed up

With markets choppy given economic uncertainty, closed end managers are fleeing to cash to shore up their portfolios. Changes in a funds cash position reflect both market sentiment and the managers anticipation of market opportunities, with Figure 1 highlighting the average cash weighting per LIC mandate as at April 2024. Small and Alternative funds are holding onto greater cash positions given the underperformance in their respective market segments impacted by a higher rate environment.

Amongst LICs with high cash positions, **QV Equities Limited (QVE)** holds around a quarter of their portfolio in cash alongside. Recently, the scheme of arrangement between QVE and **WAM Leaders Limited (WLE)** received court approval with the transaction set to take place in July this year and set to bolster WLE's portfolio at the completion of the transaction. Other domestic managers in **WAM Alternative Assets (WMA)** and **Cadence Capital Limited (CDM)** also hold significant cash positions, whilst trading at significant discounts to NTA, as highlighted in Figure 2

Figure 1 - Cash Weight by Mandate

Amongst global and alternative managers, **Bailador Technology Investments (BTI)** holds almost a third of their portfolio in cash, however has recently announced a \$20m investment in digital healthcare platform Updoc. The LIC invests purely in information technology companies looking for expansion capital with the fund investing in the early stage of a company's lifecycle. BTI is set to capitalise off strong growth earlier this year in the technology sector, reporting a pre-tax NTA return of 20.5% over the last year and 9.7% p.a. over the last 3 years.
